Registry

Data
Standard

EWP - Structure

European Grade Conversion System

- Automatic Grade conversion
- Based on grade distribution tables

THE EUROPEAN STUDENT CARD

Pilot project – European
Student Card

- Enabling access to HigherEd services all around Europe
- Single identification: connected to student data

What is EMREX?

- A general solution to enable the students or former students to control their data
 - Access to data
 - Share data
- Open network – result owner gives access
- GDPR compliant
- Standardised format – ELMO
 - Diploma, Diploma Supplement and Transcript of Records

EMREX vision

- Enabling digitalisation of any process in need of assessment data - before, during and after studies
- Goes beyond Erasmus+ mobility
 - student mobility programs
 - cooperative arrangements e.g. joint degrees, double degrees
 - admission services
 - recruitment solutions
 - credential evaluation
 - authorization

What is ESMO

- Implement eIDAS eID in the services we provide for admission and student administration
- Extend eIDAS authentication to include sector specific attributes
- eIDAS not yet ready for this, need for an alternative approach
 - Need for a trust infrastructure
 - Reuse EWP infrastructure
- Still ongoing, some results already
 - implemented eIDAS authentication into our services
 - will be reused later to facilitate EMREX

Cooperation

- The same data standard - ELMO - for exchanging result data ToR / Diploma:
 - Cooperate on further development of the standard
- Common need for registry
- Dissemination: to a large extent the same stakeholders
- Sustainability
 - Cooperation, not competition
 - User-friendly and holistic ecosystem of IT tools

eQUATIC

Online Quality Assessment Tool
for International Cooperation

- Allowing to measure quality of university partnerships
- Using data from participants reports and Mobility Tool+
- Statistical analysis (visualisation)
